

Resiliency Training MARTIAL ARTS FOR THE MIND

Also titled: "Stress Management Skills for Leaders or Breaking the Cycle of Stress"

Gain clarity of mind and an increased capacity to meet and overcome life's challenges. This training, used at NASA, is at the cutting edge of stress reduction. It provides a combination of cognitive training for getting at the root causes of stress, along with powerful breathing and relaxation techniques. These methods have been clinically proven at Harvard and MIT to enhance mental focus and clarity, reduce errors, and relieve a wide range of stress related health conditions. Incorporate these techniques and powerful changes in attitude into your life:

- Understand and communicate more effectively with difficult people.
- Enhance resiliency to meet challenges; recover more quickly from adversity.
- Work under pressure with greater calmness and clarity of mind.
- Dramatically reduce stress with simple breathing and relaxation techniques that can be done in just a few moments.
- Achieve relief from chronic pain, high blood pressure, insomnia, and many other stress-related conditions.
- Focus the mind where you want it to go, to achieve results more quickly and effectively.

"This program was very helpful for me and for the captains and XO's at the Annual Fleet Administrative Management Conference. I'd like to see this training spread more broadly through NOAA."

— Admiral Jon Bailey, NOAA

Dear Karen & David,

I want to thank you for the exceptional job you did on the "Breaking the Stress Habit" course here at Ames today. It was even better than the first class, and that one was tremendously successful! Feedback on the evaluations from all participants has been so enthusiastic...8-10s on a scale to 10. Can't get much better than that. After the first class, one manager told me "It's the best thing I've ever taken at Ames," and he's been here almost 20 years.

I feel this is the best stress management program we've ever offered in my 20 years at the Center, and I'm thrilled that we have you on contract for two more classes before the end of the fiscal year. With the response as great as it has been (30 people signed up for the class today!) it's obvious there's a great need. I am confident that we can continue to offer our employees this practical training in life that provides effective tools they can work with, and not just a lot of talk.

People I've spoken with about the course have commented on feeling more focused, calm, and have experienced increased productivity that continued for weeks after the training. It's exciting to think that hundreds of employees will be trained in these life-affirming techniques all over Ames as we continue to offer this course. This could truly revolutionize Ames Research Center. At least, it will revolutionize many people's lives on a daily basis.

In the face of the constant uncertainty, reduction in force, budget cuts, and reorganization facing NASA, this course is exactly what everyone needs. I wish we could make it mandatory for all employees...Now that would be revolutionary! Please feel free to refer any potential clients in industry or government to me for a recommendation.

Sincerely,

Dear David and Karen:

I wanted to drop you this thank you for the stress-reduction program you presented for my staff and other personnel who work in the Jones Hall United States Army Reserve Center (the "Center") in February. It's been several months since the training, and we are still feeling the positive results. I can easily identify the people who attended the course. As you know, this is a high stress environment, and the training has helped decrease stress significantly. It's been a great help in accomplishing what we need to get done here.

A pleasant surprise - even those who weren't able to take the course have benefited by the improved atmosphere. Somehow, it's rubbed off; they are also experiencing greater productivity and reduced stress. Having a core of trained people has benefited the whole Center. Even one person with calm energy in the face of challenge helps everyone to respond at their best.

We are constantly faced with challenges in this high operational environment. Currently, while we are preparing for the deployment of a substantial number of our soldiers, I feel we are better prepared to take what comes in stride and respond appropriately as needed.

On a personal level, it has helped me to put into perspective those areas that are otherwise stress inducers and deal with them in a productive, stress-reducing way. I have told several people about some of the techniques you use to view life in a way that helps the individual control life, instead of life controlling the individual.

I recommend your work highly. The staff and I thank you for bringing this training to the 351st Civil Affairs Command. Please feel free to use this letter and me as a reference. Of course, I can be reached at (415) 968-1696, ext 202.

Sincerely,

Dear David and Karen:

Thank you for providing your stress and leadership training to our officers at our Annual Fleet Administrative Management Seminar this past December. The program was very well received, not only by the attendees, but also by members of our senior leadership who sat in on your session as well. Everyone enjoyed the training and found it extremely useful. I understand there are active discussions about bringing this excellent training to more officers and staff within NOAA.

Our shipboard personnel work in a unique and challenging environment. These mental and physical challenges are diverse and handling them appropriately and effectively is critical to the success of a ship's mission, The skills you have provided us with will ensure we are more capable of adroitly tackling these challenges which surface everyday and from every quarter.

This was the first time we attempted any training of this type at our week-long Management Seminar, and my apprehension at trying it out on this no-nonsense crowd was great. However, about 60 seconds into your training, my apprehension disappeared along with my stress! Also, I was glad we started our week with your program. Throughout the remainder of the week, many participants and presenters referred back frequently to the ideas you shared with us. Finally, on top of work challenges, I know people often experience stress in their personal lives. Your training can also help in these areas, making it truly full spectrum and life enhancing.

In closing, I'd like to thank you again for your lively and engaging training. We all found it very effective and enjoyable (as reflected by the course critiques) and I recommend it highly. I'll be commanding a vessel later this year, and plan to have you on board at some point to bring this training to the entire crew.

Best Regards,

Lieutenant Commander Todd A. Bridgeman, NOAA

To whom it may concern:

I am a 25 year Police veteran and command the Training Division of the San Jose Police Department.

I have seen the negative effects of stress on many colleagues over the years, and so I was happy to offer the Gamow's seminar to a group of sworn and civilian members of our department. The response was overwhelmingly positive, with so many folks indicating that we needed to offer it again, to MORE Police employees.

Since the seminar, I have personally used the techniques many times and I have spoken with many of those who attended — all report success, greater calm in tumultuous situations, and less stress when faced with otherwise overwhelming workloads. I strongly recommend their course to anyone.

Dear David and Karen,

I just wanted to thank you for the two excellent trainings you provided for our staff. We were very pleased with the response, especially from our senior managers. They are under tremendous pressure from the heightened security needs we face since 9/11, and it has taken a toll on our people. Your program was a life-saver for all the participants, and provided techniques that people can immediately put to use as soon as they walk out of the classroom.

We opened up the training to everyone on staff, from maintenance people to top-level management, and had a great cross-section of participation.

Several senior managers who attended were very pleased with the program's practicality and effectiveness. They asked that this be made available to all our employees on an on-going basis. If the response to the last two trainings is any indication, there will be a full crowd again next time you come. We look forward to having you back again, soon.

Dear David and Karen,

I can't tell you how appreciative we are that you were able to participate in our recent dispatch managers' retreat. I'm not surprised to see the positive results of the written evaluations. Many people approached me later in the day and the following morning to tell me how much they received from what you taught. Dispatchers, their managers, and supervisors are a unique group and face many stresses comparable to those of first-line responders. I think as a profession, we should be doing much more to support and address their cumulative stress. Your work just is the right balance of tools and techniques to help us move in that direction.

I highly recommend your program. Our work is challenging, and having the ability to react calmly in pressure situations is an invaluable skill. Your ability to not only show us how to do that, but motivate and inspire us to do it, is what makes your program so valuable.

I'm delighted that your course is on its way to being POST certified and look forward to it being available to a wider audience of dispatchers and supervisors as soon as possible.

Sincerely,
