Skills for Enhancing Workplace Performance and Effectiveness

also titled Martial Arts for the Mind

Gain clarity of mind and an increased capacity to meet and overcome life's challenges. This training, also used at NASA, is at the cutting edge of stress reduction. It provides a combination of cognitive training for getting at the root causes of stress, along with powerful breathing and relaxation techniques. These methods have been clinically proven at Harvard and MIT to increase concentration, reduce blood pressure, manage chronic pain, and reverse advanced heart disease.

Incorporate powerful changes in attitude into your life, along with easy-to-learn techniques that will greatly reduce your stress. Participants will learn how to:

- Understand and communicate more effectively with difficult co-workers.
- Manage challenging work situations with greater calmness and clarity of mind.
- Dramatically reduce stress with simple techniques that can be done in just a few moments.
- Achieve relief from insomnia and chronic pain.
- Enhance your personal productivity. Focus the mind where you want it to go, to achieve results more quickly and effectively.

David and Karen:

Thank you for bringing your training to our hard-working staff. We have been interested in providing meaningful stress management help to our staff for a long time, and had not found a program that we felt would be effective.

We found yours to be different. It includes simple exercises and tools that people learn in class and can do easily on their own. When I returned to my desk after the training, I found that I was more focused and relaxed than I had been in a long time. In fact, I was extremely productive that afternoon, more than usual. I was interrupted numerous times, but was able to handle people quickly and kindly and return to work focused and relaxed.

We initially brought you in for two training sessions for our management. Afterwards, they felt strongly their staff would benefit also. We scheduled four more training sessions for our staff and they were very well-received. Several months later, people are still talking about the benefits and practicing the exercises and the ideas they learned. Given the pressures on IT to perform, this is an enormous help with our focus, perspective, and productivity.

Your program is very effective and powerful. I highly recommend it. It was a pleasure to meet and work with you both and I hope our paths cross again soon.

Sincerely,

Dear David and Karen,

I am writing to let you know that I have heard excellent reviews of your three-hour stress management seminar, *Breaking the Cycle of Stress*, which you conducted yesterday for 14 of our Directors of Finance and Administration and senior management staff. They commented that it was “fabulous” and the fastest 3 hours they had ever spent. I heard some remarkable reports of the benefits people experienced.

Due to the excellent feedback, we would like to have you return for an encore presentation. We have also received an inquiry about doing a session for one of our other departments.

One of the participants wrote:

“I couldn’t wait to tell you how much I appreciated the workshop. I am never able to sit in a chair for long due to my bad back. Yet, I had absolutely no trouble sitting the entire three hours without even a hint of being uncomfortable (which I am 99.99% of the time). Another positive outcome is that I have done the guided exercises 5 days in a row and am seeing tremendous ongoing benefits [in both pain relief and communicating more effectively with others]. I can’t begin to thank you enough for the workshop and all that I learned and gained from it. The benefits are incredible. Meeting these presenters has changed life dramatically for me in so many ways and in such a short time.”

Thank you so much for the wonderful experience you provided for our administrators, and for providing a very useful, worthwhile training session for our professional staff. They not only found it informative, they are very enthusiastic about incorporating the techniques they learned into their everyday work life.

Sincerely,

Dear David and Karen,

We were very pleased to offer three sessions of your “Breaking the Cycle of Stress” training to our Pathology staff.

One of our senior managers said that the program was:

“Educational with the potential to liberate; this should be taught in grade school to everyone. This is a life skill worth having.”

Other comments we received:

“It was an EXCELLENT workshop. Very relaxing and positive. I am eager to start practicing.”

“This program has a lot of real-life examples and situations that are helpful to us to handle our stress. Today’s program is beneficial to us for the rest of our lives.”

“Relevant to everyday situations. I felt like I could realistically apply the techniques immediately after.”

Our staffers are a busy and skeptical bunch, so it was a pleasant surprise that the feedback was so positive. We were very glad to offer this to our employees. It was a high priority for us to offer a beneficial program that would really help people with stress levels. Your program is useful and effective, and we appreciate what you have brought to our department.

We highly recommend your work.

Dear Karen and David:

Thank you so much for your wonderful presentation on Stress Management. You did a marvelous job and the feedback on your workshop has been extremely positive.

When I previewed your course at one of the public programs you give on occasion, I was very impressed with the content, format, and delivery of the session. Your presentation represented all the aspects I had been looking for — professional, research-based, dynamically performed, balanced between practice and theory, and extraordinarily useful.

I was delighted when you agreed to offer the same presentation to my management group. What I didn't tell you (I didn't want to raise *your* stress level) was that the group of sixty managers were all veteran educators who definitely have a "show me" attitude when it comes to staff development. In fact, the core of the group was composed of people who do staff development for a living — a very tough audience. Well, the reviews are in and you guys were an absolute hit. Yours was the single highest rated program we have ever had. The comments about your program were uniformly enthusiastic. The blend of information and tools about stress that David presented in such a dynamic way, and the actual practice of meditation led by Karen, was very effective. Many participants told me that it was the most valuable training they had ever experienced.

So, again, thank you. Educators have a tough and stressful job and you have given them the means to effectively cope with that stress.

I could go on and on singing your praises, but I must now face that I have the impossible task of arranging future programs that live up to the high standards that the Gamows have set. Breathing deeply...

Sincerely,

Tom Fitzpatrick

Dear David and Karen,

Thanks to both of you for another superb session today! Your program has proven to be popular here. As always, we are receiving wonderful feedback.

A stream of people leaving the classroom thanked us personally, saying that this was the most beneficial training they ever attended. Typical of the comments we received was this enthusiastic evaluation: "Two thumbs up! This is a workshop not to be missed. It will change your life!" We pride ourselves on offering practical training to our people, so this is saying something, indeed.

Our employees are an extremely intelligent group of people, including some of the country's finest research scientists, and they gave this program top ratings. It's a big plus that the program is based on clinical research and that people can experience the results of the techniques first-hand. Even our traditional skeptics were won over.

We're very pleased to provide this training to our employees, and plan to have you back again soon. This program is very much needed, and it works.

Dear Karen & David,

I want to thank you for the exceptional job you did on the "Breaking the Stress Habit" course here at Ames today. It was even better than the first class, and that one was tremendously successful! Feedback on the evaluations from all participants has been so enthusiastic...8-10s on a scale to 10. Can't get much better than that. After the first class, one manager told me "It's the best thing I've ever taken at Ames," and he's been here almost 20 years.

I feel this is the best stress management program we've ever offered in my 20 years at the Center, and I'm thrilled that we have you on contract for two more classes before the end of the fiscal year. With the response as great as it has been (30 people signed up for the class today!) it's obvious there's a great need. I am confident that we can continue to offer our employees this practical training in life that provides effective tools they can work with, and not just a lot of talk.

People I've spoken with about the course have commented on feeling more focused, calm, and have experienced increased productivity that continued for weeks after the training. It's exciting to think that hundreds of employees will be trained in these life-affirming techniques all over Ames as we continue to offer this course. This could truly revolutionize Ames Research Center. At least, it will revolutionize many people's lives on a daily basis.

In the face of the constant uncertainty, reduction in force, budget cuts, and reorganization facing NASA, this course is exactly what everyone needs. I wish we could make it mandatory for all employees...Now that would be revolutionary! Please feel free to refer any potential clients in industry or government to me for a recommendation.

Sincerely,

We've been going through a very stressful downsizing. After your program, we hired a placement company to help staff find jobs. The counselor called me with surprise and said, "Usually people are worried about the changes awaiting them. Your people have been calm and collected, even laughing and enjoying the process. Why?" I attribute it largely to the success of your program. **It has been invaluable for our people in dealing with the changes that have taken place.** Thank you!

—HR director (Anonymous)

I enjoyed your program immensely. This program is excellent for people on the bench. I've thought long and deeply about how to respond to the people who appear in my courtroom, given their frustrations, lack of respect for authority, and the necessity to be both understanding and strong. Thanks again for the important information you've provided. I intend to implement all of the tools in my professional and personal life.

—A judge (anonymous as required by law)

We needed this program. It couldn't have come at a better time.

It had a powerful effect on a number of our people who are experiencing extremely challenging situations — divorce, caring for aging parents, serious illness — on top of the demands of managing a busy conference hotel with more business than usual. Just looking into the faces of these people, I could see immediate benefit from the techniques you taught.

—Chrissie Plock
Director Human Resources
Hilton Tampa Westshore, FL

I practice the guided exercises with your CD every other day, and find it very helpful. It's terrific reinforcement.

—Jeff Ing, Sales Manager, Oracle

I just want to say thank you! The techniques you teach are wonderful. I have gained so much control over areas of my life that I always felt I had very little control over. I just experienced, hands down, the best interview of my life. I was offered the job I have wanted, but never had the courage to apply for until now. This experience has given me confidence and a positive perspective. **I'm amazed at how just a few hours of your program changed my life in such dramatic ways.**
